

Assignment #4

I am going to mix in some Photoshop lessons to make sure everyone has a basic understanding of Photoshop. This first lesson is about text and formatting text.

Step 1: Create a new image of size 1000x400 pixels. Instead of transparent, change the background color to something else (you choose). Using the text tool, Word Art, and blending options, create a collage made up of 15 words that describe YOU. Think of appropriate colors that help describe the words.

Step 2: Save as a png.

Step 3: Create a post on your Web Design blog. Write a reflection paragraph and insert the image.
