

## Assignment #5

Create a three page website (save them as A5\_p1.html, A5\_p2.html and A5\_p3.html). On each page create a top ten list for a category of your choice. For example, top ten movies of all time (in your opinion). Include an image and change the color (either font, background or both) as well. Create a heading in Photoshop and insert on the page. Insert each onto your weebly and write a reflection paragraph.
