

Assignment #6

Before starting this assignment link your Top Ten Lists together. Do this by:

`Go to second list` or if linking a button or image
``

For this assignment, do the following:

1. Sign in to dropbox.com
2. Go to kissr.com choose a domain name and click on create site!
3. Click on Allow
4. Go to dropbox.com and click on Apps<your domain name
5. Delete the index.html and the index(1).html
6. In Notepad, create a file and save it as index.html. This file is going to be your home page....
7. Create buttons in Photoshop (we will do a demo) for assignments 1-5. Insert these buttons on your index.html page.
8. Move all of your html files to the kissr location.
9. Link each button to its respective html page.
10. Create a title for your home page in Photoshop. Insert this title onto your page as well.
11. Upload all files index.html and all of your images to Apps/your domain name
12. Click on the file to see what it looks like!
13. Click on share and copy and paste the link onto weebly.com. Write a paragraph reflection.
