

Assignment 3 Old School HTML

Guess what holiday is coming up??? Create a History of Valentine's Day website. The things you need to include are:

- At least three paragraphs (in our own words) detailing the history of the day.
- Change the background color of the page to some shade of red.
- Insert an image. Center the image.
- Create a H2 heading (stating something like "History of Valentine's Day" and change the font color of the heading to white.

To insert image from image on web (you have URL)

```
<img src= "http://www.bcerrone.com/A8.gif">
```

To insert image from computer:

- save image
- If you create folder called Images, make sure you use it when you are "pointing" to the image

```

```
