

## CSS Selectors -- ID

### Type 1: ID tag (within div tag)

#### HTML code

```
1 <!doctype html>
2 <html>
3 <head>
4 <meta charset="UTF-8">
5 <title>CSS practice</title>
6 <link href="css.css" rel="stylesheet" type="text/css">
7 </head>
8
9 <body>
10 <h1> CSS Practice</h1>
11 <br>
12 This is a practice html file.
13 <br>
14 <br>
15 <div id="content">
16 Every year on March 17, the Irish and the Irish-at-heart across the globe observe St. Patrick's I
   for the patron saint of Ireland has become an international festival celebrating Irish culture w
   a whole lot of green.
17 </div>
18
19 </body>
20 </html>
21
```

CSS to change color of div tag to green, text to white, dashed thin yellow border.

```
1 @charset "UTF-8";
2 /* CSS Document */
3
4 body{
5     background-color:black;
6     color:white;
7
8 }
9 h1{
10     color:red;
11 }
12
13 #content{
14     color:white;
15     background-color:green;
16     border:dashed;
17     border-width:thin;
18     border-color:#EBF702;
19 }
20
```

Output:

# CSS Practice

This is a practice html file.

Every year on March 17, the Irish and the Irish-at-heart across the globe observe St. P  
an international festival celebrating Irish culture with parades, dancing, special foods :
