

Final Web Design

You are going to create a website for Erie High School. It is worth 20% of your grade, so make sure it is complete and professional looking. The basic requirements are:

On each page you need to have at least one self created image from Photoshop.

Page 1: Introductory page — include contact information, address, maybe a map, etc.

Page 2: Administration and Office page — include information about administration and office staff

Page 3: Teacher page — include information about faculty and the subject they teach

Page 4: Sports page — include information about sports offered and coaches

Page 5: Clubs/activities page — include information about clubs and activities offered at MHS

Make sure you create a CSS page and that page is linked to each of these pages to give it a consistent look. You need to have some sort of navigational system to go from page to page (buttons or something).

Create a folder and name it Final_yourname. Put all 5 html pages, your CSS page and all images in this folder and share it with me. It is due on Wednesday, May 13th at the end of class.
