

Part 1

Some things to add to your March Madness page.....

1. Add H1 heading with your team's name.
2. For your body tag, change the font size, font type.
3. For the H1 tag, align center and change the color of the heading.
4. For your table tag, add borders, cellpadding and cellspacing as needed.

CSS tags needed:

5. font-size: 1em; Note: 1 em = 16px
6. font-family: "Times New Roman";
7. color: #FF6501;
8. text-align: center;

For the table, click on the link on my website.

Part 2

Create a second page for this website. This second page should be a list of the current top 25 teams. Go to espn.com>NCAAM>Ranking to get this information. Use an ordered list. Add at least one CSS style to this list as well. Save this page as ranking.html in your Portfolio folder. Link your current CSS file to this html file as well.

Link the team you chose to your March Madness page for that team.
