

## Some more Code...

### Bold

```
<b> text here </b>
```

### Underline

```
<u> text here </u>
```

### Center

```
<center> text here </center>
```

### Change font color

```
<font color = "#color">text here</font>
```

### Heading

The heading tags can be used to introduce a section of a web page. The tags are from h1 to h6 with h1 being for the more important sections (larger font style)

```
<h1>text here</h1>
```

### Horizontal Line (or Horizontal Rule)

```
<hr>
```
